

SATURDAY EVENING, AUG. 12, 1905.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., August 12.

The commercial value of railway operating property in the United States, computed for the year 1904, was \$11,144,852,000. This is exclusive of the physical value of Pullman cars, which is estimated at 51 million dollars, and of private cars, estimated at 72 million dollars. This stupendous total presents the results of an extended inquiry in regard to the commercial value of railway operating property in the United States, conducted by the Bureau of Census, with the co-operation of the Interstate Commerce Commission. By commercial value is meant the estimate placed upon the worth property is regarded as a business proposition—that is, the market value. Among the States, Pennsylvania ranks first in the commercial value of railway operating property, with a total of \$1,420,608,000; New York is second, with \$898,222,000; which is exclusive of the Jersey City ferries of the Pennsylvania railroad system; Illinois is third, with \$805,057,000; Ohio fourth, with \$689,797,000.

The State Department has cabled instructions to consular officers in China to make detailed reports of the boycott situation throughout the empire. More and more importance is being attached to the Chinese embargo on American goods, and there is good reason to believe that upon the information now being obtained this government will take active measures to quell the anti-American agitation in the Celestial Empire. While informal exchanges on the boycott have taken place between the State Department here and the foreign office at Peking and an order was issued from Peking to viceroys instructing them to prevent the boycott, practically nothing has been done by Chinese officials.

The Panama Canal Commission today received a report of an additional case of yellow fever on the Isthmus, that of a German non-soldier.

The Washington Local, 368, of the Brotherhood of Painters and Decorators, last night decided to call on the men in their organization employed in the navy yard unless their pay is increased to \$2.50 per day. The present scale is from \$2.20 to \$3.04 per day.

U. S. Minister Beaupre, at Buenos Ayres, cables the State Department the following particulars of the attempt to assassinate the President of Argentina yesterday: "An attempt was made upon the life of President Manuel Quintana today while he was driving in Retiro Park. Planas Viciella, a laborer, leaped from behind a monument with a drawn revolver. The President's aide jumped from the carriage and overpowered the man before he was able to shoot. Viciella is believed to be demented."

Mr. James Hay, of the Seventh Virginia congressional district, says he will not again accept the chairmanship of the democratic caucus if it is offered him. He has been chairman of the caucus for the past three sessions.

Mrs. Ryan's Munificence.

Mrs. Thomas F. Ryan, of New York and Nelson county, Va., will soon let a contract for a magnificent up-to-date hospital, which will be built on the half acre of land which she purchased some years ago at the corner of Tenth and Clay streets, in Lynchburg. It is known that it will be one of the most complete, best equipped, and most modern institutions of its kind in the country, and its cost when completed will be about \$100,000. The plans, prepared by Joseph M. McGuire, of New York, the architect, who designed the cathedral erected by Mrs. Ryan in Richmond, have been received, and are being inspected by builders and others with a view to sending in their bids at once. This matter is in charge, at present, it is understood, of Rev. Father McGurk. The hospital will front on Clay street 100 feet, and, being built with a center wing in the rear, will extend back 90 feet. It will be fireproof, of red brick, with slate roof, and all the corners and ornamental parts will be of galvanized iron. The building will be three stories, a basement, and an attic, and from the ground to the comb of the roof will be 70 feet high, while in the center of the roof there will be a cupola 20 feet high. It will be maintained for charity and pay patients, with entirely separate arrangements for white people and negroes.

The Brentsville Tragedy.

As stated in yesterday's Gazette, A. J. Ramey killed Lucian Beavers at Nokesville, Prince William county, on Thursday evening. The dead man was unmarried and was 24 years old. Mr. Ramey went to Manassas yesterday morning ready to answer any charge against him. He says that Beavers, who was not considered sane, had created a disturbance the night before at Mr. Wheaton's, who lives across the road from him, and again that afternoon, when he assailed Mr. Wheaton and others with an old sword. Later when he found he was fastened out of Wheaton's house he came to his, still armed with the sword. He says he remonstrated with Beavers, who laid the sword down, but when he saw some one getting the sword he grabbed a knot of wood and started at Mr. Ramey, who grabbed a gun and shot in the air. This did not stop him and he shot and struck him in the wrist. This only enraged his assailant the more and he knocked him down with the gun, fracturing his skull from the effects of which Beavers died. At the coroner's inquest held yesterday afternoon by Justice W. M. Rice the jury brought in a verdict of justifiable homicide.

Launch of the Kansas.

Camden, N. J., August 12.—The battleship Kansas took her initial dip into the Delaware at the plant of the New York Shipbuilding Company, at 12:47 o'clock today. In every particular the launching was a success. Governor Hoch of Kansas, his daughter, Miss Anna Hoch, the sponsor of the Kansas, Mrs. Hoch and the others included in the launching party occupied a small platform built at the prow of the battleship. The signal valves were opened connecting with the "triggers," disconnecting the latter and freeing the ship. At that moment the great four-hundred ton hydraulic rams were called into requisition. Gently but with an irresistible power they started the craft on her journey. With a strong sweep of her journey Miss Hoch struck the steel prow a resounding blow with the gold incased bottle of champagne, breaking the latter into a thousand pieces as she exclaimed in a clear, musical voice, "I christen thee Kansas."

News of the Day.

The granite walls of the Treasury building in Washington are to be cleaned within 45 days. The work, which has been in progress about a week and has been largely experimental, was begun with vigor yesterday upon the great north walls of the building. It is in charge of J. F. Bruce, a native of King William county, Va., who has invented a fluid which removes any kind of dirt or stain from hard stone, such as granite or marble.

Significant utterances were made yesterday by President Roosevelt in his address before the Chautauqua assembly at Chautauqua, N. Y. In discussing the future of our national foreign policy in connection with the evolution of the Monroe doctrine the President made a diplomatically veiled threat which his auditors understood as referring to Venezuela in connection with the asphalt controversy. He declared that if any neighbor of the United States should try our forbearance to the limit, extreme action would be taken with reluctance, but with no idea of territorial aggrandizement.

PEACE PROSPECTS SLIM.

Russia's reply to the Japanese terms of peace were to be delivered by M. Witte to Baron Komura at 9:30 o'clock this morning. The reply is written, there being two texts, one in French, the other in English. Upon the two crucial points, indemnity and the cession of the island of Sakhalin, the reply is an absolute non possumus. Other points are accepted as bases for discussion, while still others are accepted conditionally.

The reply is rather long, because in enumerating the conditions upon which discussion is admitted and those upon which consideration is declined, reasons and arguments are given. The Japanese plenipotentiaries are expected to ask for an immediate adjournment to examine and prepare their reply. M. Witte will probably intimate that the Russian plenipotentiaries expect the Japanese to display as much expedition as they (the Russians) have shown in the preparation of their response. Monday, therefore, is expected to be the day on which the real discussion will begin. Neither side wants to indulge in diplomatic sparring. The time for fencing is over, and less than a week must decide whether a basis of peace is possible.

A delicate situation has grown out of the limitations of the respective envoys, M. Witte having full power to negotiate a treaty and Baron Komura being obliged to refer any agreement to the Mikado for ratification. M. Witte threatens to take the same privilege.

Although no official announcement has yet been made in St. Petersburg, it is everywhere predicted that Russia will reject the Japanese terms and break off the negotiations. As for the terms themselves, there is only one opinion, that is that they are severe and drastic beyond the point that any self-respecting power could accept or consider. Nobody, indeed, believes that Japan herself imagines that Russia will accept them. It is therefore assumed that Japan consented to the conference in full knowledge of its futility.

M. Witte's dispatch reporting the proposal was not translated from the code and placed before the czar at Peterhof until nearly midnight. It is not known how the terms were received by his majesty, but what he did was most extraordinary. Ordering a carriage and escorts, he drove during the darkest hours of the night to Krasnoe Selo, the great military camp, two hours' distant from Peterhof. The only other occasion on which he has left Peterhof was to meet the Kaiser.

At a late hour last night the czar's visit to Krasnoe Selo was explained, and it is abundantly significant. His reply to Japan's demands is a demonstration of his personal allegiance to the army. He invited all the officers of the imperial guard to luncheon. He sat at the head of the table in the barracks and at the close of the meal he proposed a silent toast to the imperial guard.

Every man understood the significance of the act without a word being spoken. They stood up and drank in impressive silence. This is the first time since the war began that the czar has fraternized with his officers. The czarina and the Dowager Empress accompanied the czar to Krasnoe Selo.

It was noted that Japan's demand for the surrender of the interned warships and a limitation of the Russian forces in the far East excited even greater resentment than the claims for an indemnity and the cession of Sakhalin.

A dispatch from St. Petersburg at 2:55 o'clock this morning says that Japan's demands have served to array the Russian government and people under the same banner for the first time since the beginning of the war, and it is evident that M. Witte will find almost solid support at his back in whatever answer he may make to Baron Komura's communication.

The government permitted and encouraged the publication of the full dispatches containing the Japanese conditions, which like fiery cross rallied Russia's disunited clans, reactionary, conservative, liberal, and radical. With scarcely an exception every voice is raised in urging the government to hold out against Japan's principal demands. Many representative Russians now declare that a continuance of the war would be better than the acceptance of such terms. The same spirit is manifested in almost every newspaper, the radical organs ranging alongside of the Novoe Vremya, while the Russ declares: "If these are Japan's conditions all hope of peace has vanished."

Earthquake Shocks.

Hong Kong, Aug. 12.—A series of earthquakes have been felt at Macao, a seaport town on the peninsula of the Island of Macao, covering a period of nine hours. The greatest excitement and alarm have seized the residents of the district affected. Great crowds have gathered in the parks, and the Chinese priests are prophesying the destruction of the town. The steamers are leaving crowded almost to the sinking point with terrified fugitives. Slight shocks have been felt here.

Rumored Communication from King William.

Manchester, England, August 12.—The dispatch says it is rumored in official circles that the Kaiser has addressed a communication to President Roosevelt suggesting that the powers should insist upon provision being made in the peace terms which Japan and Russia may agree upon to prevent Japan from acquiring ascendancy over China.

Virginia News.

David S. Grimes, a native of Leesburg, died at his residence, in Denver, Col., last Wednesday, aged 77 years.

Prof. Thomas J. Farrar, of The Plains, Fauquier county, has been elected to the chair of modern languages in Washington and Lee University.

Mr. Levi Hixson, of Prince William, who has been in bad health for several months, died on Sunday night last in his seventy-first year. Mr. Hixson was an ex-Confederate soldier, having served with the Prince William Rangers.

The corporation commission has granted a charter to the Flint Hill Mining and Lumber Corporation; principal office, Flint Hill, Incorporated, A. J. Speers, president, Germantown, Pa.; F. J. Baral vice-president, Philadelphia, Pa.; A. C. Young, secretary and treasurer, Philadelphia, Pa. Capital stock, maximum, \$50,000; minimum, \$25,000. Objects and purposes, to buy and sell land, manufacture lumber, mine coal and minerals.

The Richmond Primary.

As stated in the Gazette of that day the special grand jury in Richmond, which has for days been investigating allegations of fraud in the recent primary, completed its work yesterday by handing in a short but comprehensive report and seven indictments. Three of these are against men already under indictment for alleged irregularities in this same election. They are Police Commissioner Christopher Manning, Jackson Wise, A. Jockey, and L. K. Culberson, a tramp, who has disappeared. The new indictments are against J. H. Beveridge, Peter Krug and J. W. Percival, who were judges in the Second precinct, Lee Ward, where there were marked irregularities, and Robert Lee Syrcle. The only other precinct affected was the Third, Monroe ward. In all others the election was found to have been conducted honestly. All of the indictments were for misdemeanors.

The report of the grand jury says that, it being believed that if there was fraud it had been committed in connection with the offices of City Sergeant and Commonwealth's Attorney, the investigation was along this line. There was a poll of practically the whole vote of the city. Of the 5,357 votes cast 3,901 were examined and only 39 voters declined to tell how their ballots were cast. The report continues thus:

"We were confronted with evidence of irregularities in the appointment of election officers. At the same time the law governing elections is so lax in certain particulars that the prevention of fraud is a matter of much difficulty. If the officers who conduct the election are dishonest men, the election will be fraudulent."

Continuing, the report says that the secretary of the democratic committee, who was also the printer of the ballots, failed to take the oath prescribed in the plan, also that sufficient care was not exercised in choosing election officers. The report, after recommending the immediate removal of the indicted judges of Second precinct, Leeward says:

"We desire to call the attention of the court to the condition of affairs in Second Lee and Third Monroe precincts. We believe they were corrupted and that the election in these two precincts was fraudulent. So far as we have been able to ascertain from the vote polled before the grand jury we believe that the election was honestly conducted in the other precincts."

Besides the six indictments enumerated Alfred B. Williams, editor of the News Leader, was indicted by the regular grand jury recently on the charge of paying an election worker \$25. All of those indicted are out on bail for trial later except Culberson, who has no home, and will probably never be seen there again.

The minority report which was prepared by Messrs. T. A. Baughman, Clarke and Lathrop, and refused by the judge, is said to contain some interesting revelations regarding the methods employed in doing the alleged crooked work for which indictments were returned, and it is said that it also desired to indict City Sergeant James C. Smith whose vote was increased by the irregularities mentioned.

The city democratic committee, which met last night, made no mention of a new primary in place of the one just investigated. The result of that will therefore stand.

Elopers Intercepted.

Nora Carter, seventeen years of age, and a young man named Pierre Taulle, who had eloped from Staunton, were arrested in Washington last night on a telegram from Staunton. Miss Carter was sent to the House of Detention with her young girl friend who had come with her from Staunton, and they will remain there until an officer comes from Staunton for them. Miss Carter is an orphan and lived at the home of her guardian. Several months ago she met Mr. Taulle, who lives in Washington, and at once a friendship sprang up which soon developed into love and ended in the elopement. It is understood the guardian was bitterly opposed to his ward marrying, claiming that she was too young.

Confederate Monument.

The cornerstone of the Confederate monument now in course of erection at Bowling Green to the dead soldiers of Caroline county, was laid Thursday with impressive ceremonies by Kilwinning Cross Lodge of Masons, of that place. Deputy Grand Master Kemper, of Alexandria, acted as master of the lodge and conducted the ceremonies. The ceremonies were under the auspices of Caroline Camp of Confederate Veterans, of which Major R. O. Peatross is commander. The town was gaily decorated with Confederate States flags and the Stars and Stripes. Among the distinguished guests present were Senator John W. Daniel, who delivered an oration, and Lieutenant Governor Joseph E. Willard.

New York Stock Market.

New York, Aug. 12.—The market ruled decidedly narrow this morning. The unfavorable appearance of the progress of peace negotiations caused some selling. There was the usual Saturday closing out of contracts by room traders and outside speculators.

They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who they are not brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by Gibson & Timberman and W. F. Creighton & Co.

Today's Telegraphic News

The Peace Conference.

Portsmouth, August 12.—The peace conference adjourned at 11 o'clock. Sato says the conferences will be continued.

Portsmouth, August 12.—M. Sato on behalf of the Japanese has issued the following official statement: "In the sitting of Saturday morning, August 12, their excellencies the plenipotentiaries of Russia have handed their reply to the note presented to them Thursday by their excellencies the plenipotentiaries of Japan. It has been decided that the next conference will meet when their excellencies, the plenipotentiaries of Japan, will notify the plenipotentiaries of Russia that they have studied the document and are ready to reply, which will be today at 3 o'clock or tomorrow at the same hour."

St. Petersburg, August 12.—The hopeful tone which has been noted in the discussion of the peace outlook continues. The view which is taken that it will be possible to agree upon peace terms at the Portsmouth conference is based upon a series of optimistic telegrams received from M. Witte. The newspapers here, headed by the Novoe Vremya, bitterly attack Japan. The papers also criticize both the United States and England, saying they are the allies of Japan.

Another Outbreak.

New York, Aug. 12.—As the result of another outbreak of the feud of the Tong which has made Chinatown the scene of much bloodshed recently, Hop Lee, a laundryman, whose place of business is at 609 East Eleventh street, is in Bellevue hospital suffering from probably fatal wounds and three other Chinamen, Chas. Jo, Mon Won and Lee Toy are held on the charge of assaulting Hop Lee. The attack occurred this morning in Hop Lee's laundry. Patrolman Dresser passed the place about 1 o'clock and noticed a crowd of Celestials standing in front of the place. They were orderly, however, and he did not interfere with them. He waited around a corner, where he was reinforced by Patrolman Blade to see what mischief the Chinese contemplated. The officers were given a signal by a citizen that trouble was afoot in the laundry. They rushed into the building where they found two of the men holding Hop Lee against the wall while another Chinaman was using a huge meat cleaver on the helpless laundryman. The assailants fled at the sight of the officers. Dresser chased two of the men to the roof of the building where he eventually overcame them by the free use of his night stick after a hard fight in which most of his clothes were torn from his body. Blake, who pursued Lee, finally caught him on avenue C. Toy showed fight and Blake used his stick to such advantage that a surgeon had to be called to patch up the Chinaman. At Bellevue it was discovered that Lee had been out sixteen times and the doctors say his death is certain.

Assaulted by Negro Preacher.

London, Aug. 12.—The county of Lanarkshire was wrought up over the attack made upon a white woman, the wife of a miner of that district, by a negro. Threats have been made to lynch the assailant and Great Britain is experiencing its first taste of anti-negro frenzy such as that which is so often displayed in the Southern States. The negro whose name is Liffey, is the pastor of a negro church. He encountered the wife of a miner and made an attack upon her. The woman resisted and after a hard struggle the negro cut the woman's throat, fatally wounding her. The word of the attack was passed rapidly among the miners who turned out in great numbers and began scouring the neighborhood looking for Liffey. He was captured, but the police took the man away from the crowd to hold him for trial. The whole district is in a turmoil over the negro attack and threats to organize a mob and lynch the negro are made openly.

Proposed National Assembly.

St. Petersburg, Aug. 12.—An official note was published today in reference to the proposed national assembly on which the hopes of all Russia are centered. In the note significant words "Supreme autocratic power" are used for the express purpose of finally removing from the minds of all liberals the idea that the fundamental law of supremacy of autocracy is to be abandoned. Great pains are taken to make clear that the function of the assembly is to be simply consultative and that it will be inferior to the council of state.

Killed by Fall of Rock.

Wilkesbarre, Pa., Aug. 12.—A fall of rock in the Truesdale Colliery of the Delaware, Lackawanna and Western Company near Nanticoke early this morning, crushed out the lives of three men and fatally injured a fourth. The men were working on the night shift and had almost finished their labors when the fall occurred. Those killed were covered with a mass of rock and it was sometime before their bodies were recovered. The bodies were crushed beyond recognition and were only identified by the clothing.

The Bakers' Strike.

New York, Aug. 12.—Arrangements have been made for a conference between the employers and the bakers at which it is hoped to settle the strike. This conference has been brought about largely through the intervention of Joseph D'Arness, the East Side Labor Leader, who declared yesterday that the strikers were taking the wrong course in refusing to arbitrate their differences with their employers.

Shea Re-elected.

Philadelphia, Aug. 12.—Cornelius P. Shea was this morning re-elected to the presidency of the international brotherhood of teamsters, after a long and bitter contest, by a vote of 129 to 121. His only opponent was Dan Fornan, of Chicago. This morning's session was the quietest held so far, and the work of choosing officers went forward in an orderly manner.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. W. L. DODD, DRUGGIST & MARVIN, Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

The Market.

Georgetown, Aug. 12.—Wheat 60.85.

The Taggart Divorce Case.

Wooster, O., Aug. 12.—Captain Taggart was again on the stand when court opened Saturday. Capt. Taggart related a few of the indecorous stories he had testified Mrs. Taggart was in the habit of telling. Mrs. Taggart's eyes blazed and while this testimony about indecorous stories was given she faced Captain Taggart. He said: "The day before I sailed in March we entered into an agreement that no action in the case should be taken by either of us while I was on the sea, and that we should be apparently friends, although our relations would be formal."

"It was agreed that after my services at sea were ended then if I feel toward each other as we did either could take action seemed proper. Mrs. Taggart followed us into the hall and held out her hand to me. She said: 'Good by Tag, I wish you all kinds of good luck,' then she kissed me good bye."

Captain Taggart was asked to describe the room upstairs where Mrs. Taggart in a kimo received an officer, according to Taggart's valet on the stand this week. Captain Taggart said: "It was a room used as a sitting room by the family before we had dressed. It was not used for the entertainment of callers." At eleven o'clock Saturday Captain Taggart finished his story.

Prize Fight.

San Francisco, August 12.—Gus Ruhlin, sometimes called the "Akron Giant," put Texas Jim McCormick away last night in the eighteenth round with asolar plexus punch of such soporific strength that McCormick did not come from the land of Nod for thirty minutes. It was the same blow that Fitzsimmons planted in Corbett's midriff and won the championship. Ruhlin worked the shift as if he had been doing nothing else all his life, and those at the ring said that never had there been such a hard blow delivered in a ring battle on the Pacific coast. Some of the enthusiasts said the blow would have stowed Jeffries away for all time. Gus Ruhlin promptly claimed the world's championship this morning though the claim will probably not be allowed until Ruhlin has met Marvin Hart. A match between Ruhlin and Hart will follow. The battle last night at the Colma Club was the hottest sort of a slugfests match. A feature of the fight was the fact that John L. Sullivan was in McCormick's corner and Billy Madden, manager of Ruhlin, looked after the Akron man. Ruhlin said this morning: "I claim the championship. I have whipped Sharkey and there is no one in the field to dispute my claim but Hart. I am willing to fight him any time."

The Yellow Fever.

New Orleans, Aug. 12.—Important question of whether or not suspicious cases reported is settled by Dr. White. He instructed that all cases either suspicious or positive fever should be reported. One of the federal service surgeons Dr. Barry, took fever yesterday. The cleaning up will be continued on Sunday when all contractors in the city will allow the use of their wagons and teams: Eight cases reported on the reserve plantation and one death. The cases at Tallah have been pronounced positive. Three more cases are reported from Patterson. The number of cases to date are 808 and deaths 133.

Liverpool, Aug. 12.—Major Surgeon Ronald Ross, professor of Tropical medicine, and Dr. Robert Boyce, professor of pathology of the Liverpool school of tropical medicine, sailed today on the Campania on their way to New Orleans to assist in fighting the yellow fever epidemic.

New Orleans, Aug. 12.—The official report of the yellow fever situation, issued at one o'clock, disclosed a perceptible increase in the number of new cases, thirty-seven being reported with five deaths.

The Presidential Party.

New York, Aug. 12.—Mr. Roosevelt and party reached this city this morning, two hours behind schedule time. At eight o'clock the President boarded the Pennsylvania Railroad boat Lancaster which met him at the Erie station in Jersey City and took him around Manhattan Island to Long Island City. No incidents of note occurred during the night run except that at every station mobs of men and women were waiting and with loud shouts demanded that "Teddy" should appear. These demonstrations were kept up as late as 2 o'clock, the crowds having remained patiently to get even a glimpse of the train which carried the President.

Oyster Bay, Aug. 12.—President Roosevelt reached home at 9:40 a. m. from his trip.

Injured by a Bomb.

Radon, Poland, Aug. 12.—The Chief of Police of this city was severely injured last night by the explosion of a bomb which was thrown at him as he was riding through the city in his carriage. So great was the explosion that several houses in the vicinity of the spot where the bomb was thrown were wrecked. The assailant escaped in the confusion caused by the explosion.

Agrarian Disturbances.

St. Petersburg, Aug. 12.—Serious agrarian disturbances are reported from the government Podolia. The peasants, who are the aggressors have erected barricades and entrenchments in a number of the villages of the district and are prepared to resist soldiers who may be sent against them.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people who seek to profit, through stealing the reputation of remedies which have been successfully curing disease, for over 35 years. A sure protection to you, is our name on the wrapper. Look for it, on all Dr. King's or Buckle's remedies, as all others are mere imitations. H. E. BUCKLE & CO., Chicago, Ill., and Windsor, Canada. Sold by E. S. Leubenter and Sons.

The Only Way.

There is no way to maintain the health and strength of mind and body except by nourishment. There is no way to nourish except through the stomach. The stomach must be kept healthy, pure and sweet or the strength will let down and disease will set up. No appetite, loss of strength, nervousness, headache, constipation, bad breath, sour risings, ruffing, indigestion, dyspepsia and all stomach troubles that are curable are quickly cured by the use of Kodol Dyspepsia Cure. Kodol digests what you eat and strengthens the whole digestive apparatus. W. F. Creighton & Co., 401 King street.

F. D. CRAIN & SON, 104 N. Pitt St., Aug. 12.

DRY GOODS.

Lansburgh & Bro.
Washington's Favorite Store.

Open Until 9 to-night.

White Cannon Cloth

SKIRTS
59c

Seven gores, with inverted box-pleated side panels. The special lot from our regular stock. They have been selling for considerable more. As there are but 100 left, we put this small price on them. We can never hope to duplicate this value. Be one of the first order to share in this bargain.

Women's \$2.50 Percale

Shirt Waist

Suits
99c

White grounds, with black dots and stripes—black grounds with white dots, and a good assortment of dark effects—sizes 32 to 44.

WATCHES AND JEWELRY

The Cleanliness

of your watch is very important. Every eighteen months it should be thoroughly cleaned and oiled to prevent its delicate mechanism from wear.

Take time by the forelock and have a little timely overhauling done. You will save your watch and money, too.

Our work is fully guaranteed. Our charges are moderate.

R. C. Acton & Son,
Jewelers and Silversmiths.

List of Unclaimed Letters.

The following is a list of the letters remaining in the Alexandria, Va., postoffice up to August 12, 1905:
